Call 449 if you fail to get the Kentuckian promptly. And if you have a news item, phone it to the same number.

Graduated taxes on newspapers and periodicals, based on the subscription price and circulation, were proposed in a bill introduced by Representative Johnson, of Washington, as a substitute for the postal zone rate system.

Philip LaFollette has done more in one day to raise the family in the estimation of the public than his father has done in the several years he has been in the Senate.

Dr. Lincoln McConnell will be here next Thursday night June 12, instead of tomorrow night. He will lecture on "The Devil and the Kaiser," with new material, at the Tabernacle.

The Hun drive is said to be halted, but it is difficult to see how the enemy can halt long in a wedge salient only twelve miles aside.

A million dollars worth of castor oil is made annually in the United States and scarcely any of it is taken with a pleasant smile.

Come out Gen. Foch, and let's try to have a double eclipse Saturday.

## AERO SERVICE LETTER.

Arthur Knollenberg, a brother of Ralph Knollenberg, manager of the local Kress store, is in the aviation service at San Diego in the 68th Aero Squadron. Another brother is in the same branch of the service at St. Paul. Writing to his brother from the Service Men's Club of San Diego, which is maintained by the San Diego War Camp Community Service, Arthur gives this interesting account of his experience:

San Diego, Calif., May 30, 1918. Dear Ralph:

Was glad to get your letter so as I have a little time now, thought I would answer it. I am at the Cabrillo Club writing now. It is a club turned over to men in uniform and sure is a nice up here. Dance hall, phonographs, writing tables, reading room etc.

Just got through seeing the parade here which was very good. There were men from Camp Kearny with regular field equipment, steel helmets and everything. Marines, Boy Scouts, G. A. R. sets, field artillery from Fort Rosecrans, autos etc., and about 20 aeroplanes flying above in squadron formation. We have moved everything now to our new quarters on the other end of the island and it sure is swell now. Have electric lights in our tents, real shower baths, etc. The show is o. k. Had a big feed one day last week. A turkey dinner with dressing, pie, vegetables, etc. They have steel hangars now and looks more like an army post. We got off all day today.

I have filed an application to take up flying, as they are giving enlisted men a chance. It will have to go to Washington and if I pass this physical examination which is very stiff, I will be sent to a ground school somewhere for 3 months. Then from ground school to a training school to learn to fly. If I pass o. k. I got commissioned as 2nd Lieut. It is apt to be 2 or 3 months though before I hear from it. This is the second application I have filed out, and they want to know everything from the day you were born up to the present time and a little bit more, so when they look up your record, they will be able to send you to Sing Sing instead of a ground school. The ground school which is nothing more nor less than a college where they teach you radio, machine gunnery, all about planes, motors, military dope, and many other things.

So one sure has to work hard and be pretty smart to be an aviator.

This is Luther's last week at St. Paul, then he will be sent to some field. Just which one he does not know yet. But it won't be this one. Well guess I have told you about all so will close hoping you are well and getting along o. k.

With love to all.

Your brother,

ARTHUR.
